Re: Maple resources

I am writing this memo to outline an extra resource we have developed for calculus lab students. As a supplement for maple students you can direct them to the following web resource:

<http://comet.lehman.cuny.edu/mathlab/index.html>

This is a web 2.0 application using html5 and optimized to work on the latest browsers and mobile devices. The application provides students with videos and notes from Pre-Calculus to Calculus II. Feel free to use this extra reference material in conjunction with your course.
